MODULAR SIGN SYSTEMS & WAY FINDING SOLUTIONS

A FASCINATING INTERPLAY BETWEEN LED LIGHTING
AND ARCHITECTURAL DESIGN

LEDs are superior to conventional light sources in many respects and are extremely versatile. **Their low power consumption, durability and maintenance free operation make them particularly economical.** LEDs are therefore ideal as a simple and efficient light source for new signage concepts which were unthinkable not long ago.

**ILLUMINATED SIGNS**
ARCHITECTURAL LIGHTING
ILLUMINATED ADVERTISING
CORPORATE IDENTITY
INDOOR ROUTING
ESCAPE ROUTE MARKING
PICTOGRAMS

COSIGN continues to expand its range of LED products which are setting a new standard for functionality and design in the signage industry. LEDs provide numerous creative design options due to a multitude of available colors, compact dimensions and flexible modules.

SOLED consists of a set of rounded, curved and squared aluminium profiles which are easy to combine in one design. Possible setups are **suspended, wall mounted, projected or flag mounted signs, directories and table stands.**
